LS

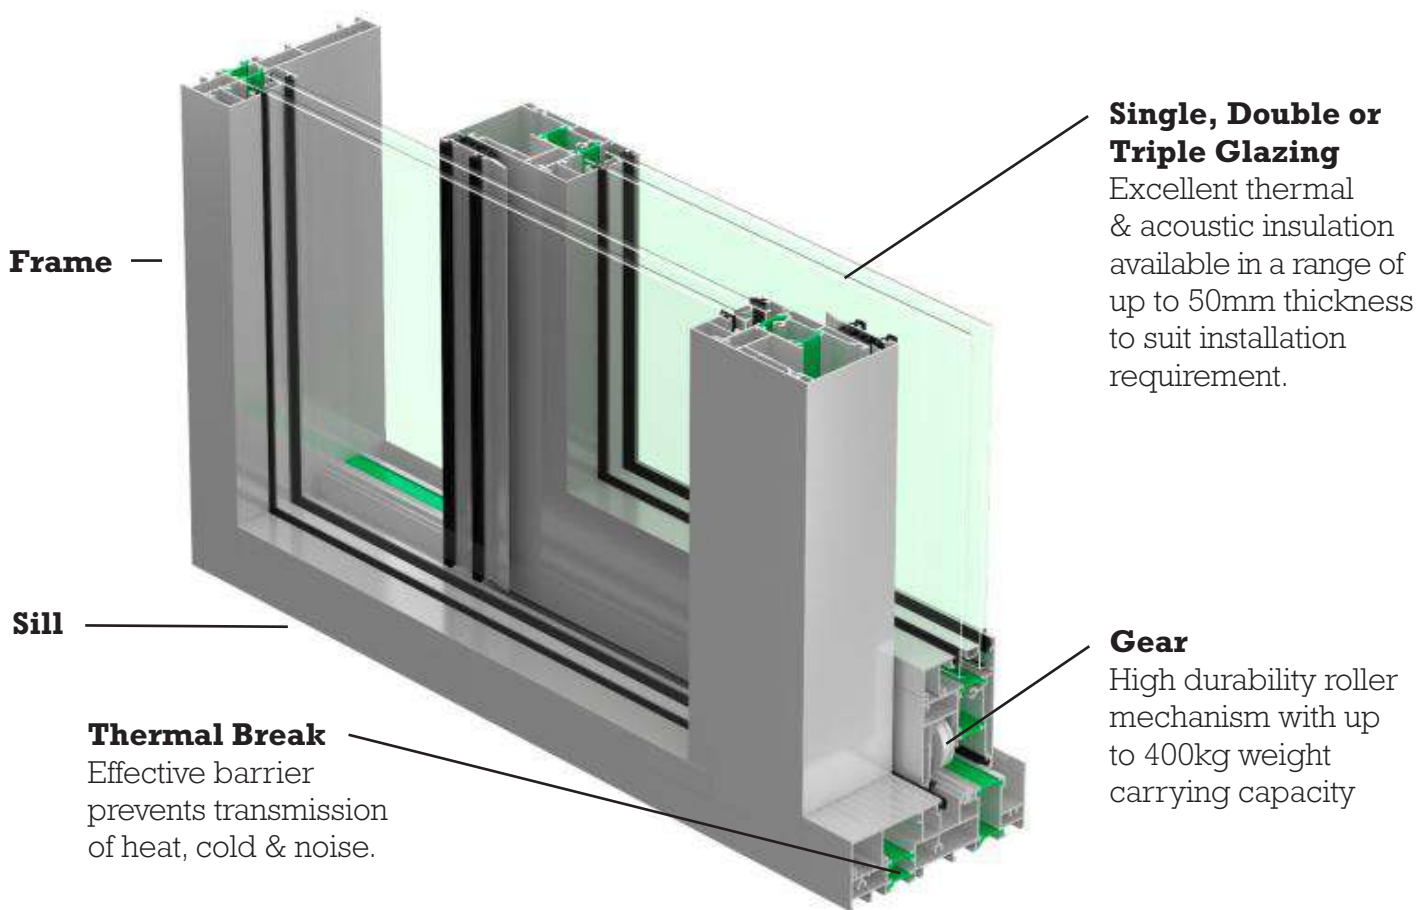

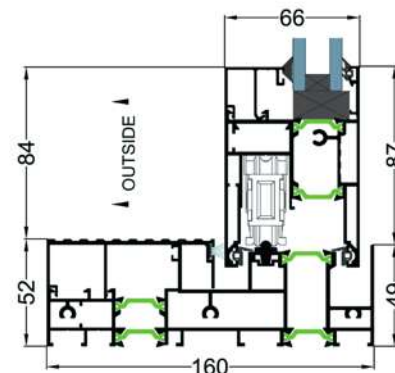

High performance lift and
slide door system

Thermeco

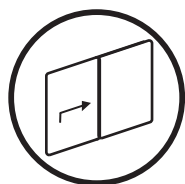

Windows for meaningful living.

EC105LS

EC105LS designed to maximize the thermal performance, door size and weight (Up to 400kg per panel). The lift & slide door is the ultimate sliding system for your needs. It allows greater connection between the inside living space and outside nature. It creates generous openings and allows maximum transparency and light penetrations. Thermally broken systems have been designed for improved energy efficiency. Our commitment to environmentally sustainable window solutions delivers you greater comfort of living and increased savings in your heating and cooling costs.

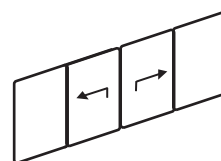

Opening Styles

Sliding Door

Max panel Height: 3200
Max panel Weight: 400kg
